Kodiak co-leads \$1.2M round for Wireless China

7 Aug 2006

Kodiak Venture Partners has co-led a \$1.2 million seed financing round for **Wireless China Inc.**, a wireless service provider in Beijing, the company said on Monday.

Waltham, Mass.-based Kodiak Venture Partners and Shanghai-based **Dragonvest Partners** co-led the round. Wireless China will use the money to launch the company's service in GuangDong Province, ZheJiang Province and Shanghai.

The two venture capital firms have a long-standing relationship in which Dragonvest identifies potential partnerships and acquisitions to help Kodiak's portfolio companies expand into the Chinese market.
